DAUCHY & COMPANY'S NEWSPAPER CATALOGUE.

CHANGE IN PUBLICATION DATE.

This directory has heretofore been issued in September, but we have decided to postpone the date to December, and have given this volume the date 1894-5. Among the reasons which have made this change seem desirable is the fact that when issued in September the year of issue had only three months to run and the Catalogue soon bore last year's date. Another is that the autumn months are more fruitful of new enterprises in publication and changes in old ones than the summer, and a postponement of three months in the date of going to press adds to the completeness and accuracy of such a work as this.

Besides the change in date of publication we have made no changes in the plan of this directory, but with each year we are able to make it fuller and more complete. This is now the fifth year of publication of this work and as its sale has increased each year we know that it has made a place among advertisers and become necessary to them

AS A DESK BOOK,

to be always at hand for easy reference. It is compact and convenient. All matter not actually useful and necessary to advertisers is omitted to save bulk, and great care has been taken in the binding to make it open flat upon the desk. The type is new, clear and legible. It is used for this work alone. The paper is fine enough for writing upon, and the presswork the best, so that it is, typographically, the handsomest of the three complete directories now published. There are certain

SPECIAL FEATURES

of this Catalogue which are not embodied in any other and which are the excuse for its existence, and which have been found fully as desirable by advertisers as we expected when some of our customers first urged its publication. The principal one is a

SPACE FOR MEMORANDA

against the name of each paper in this catalogue, inclosed in dotted lines. Any advertiser who has attempted to use a newspaper directory to keep memoranda in has realized the impossibility of notes on narrow margins and soft paper. But the advantage of having a space in which can be recorded the date and amount of contracts, the first and "O K" dates of the insertion of advertisements, the

date of bills and their payment and other memoranda cannot be overstated. Once used in this way our Catalogue becomes indispensable and affords the only satisfactory method of keeping such information compactly and systematically. It is used also in the checking departments of advertisers and advertising agents as an index to checking books. Some firms use several copies of each issue in this way.

WE MARK CO-OPERATIVE PAPERS

with the letter "C," and ours is the only newspaper catalogue in which they are so designated. This knowledge is of great advantage to the advertiser, who needs to know, when making up his lists, whether a paper is printed all at home or not. If it is a "patent outside" or "patent inside," i. e., prints only one side of its sheet at home, the other side being printed in some large city, he will class it differently from the all-home-print papers. The co-operative papers in this book are so marked from the various lists sent out by the co-operative publishing companies. But those lists are constantly changing owing to papers taking up the "patent" plan or discarding it, so a few papers may be marked patent which are not now, and *vice versa*. But, although absolute accuracy in this respect is impossible, we think we have come as near to it as can be.

NARROW COLUMNS.

The number of papers, mostly among the large dailies, whose columns are so narrow that they cannot take cuts over two inches wide, is increasing. Advertisers are often put to expense and annoyance by not knowing, before they prepare their cuts and copy, which these narrow-columned papers are. To meet this difficulty we have marked with an upright cross all publications which cannot use cuts over two inches wide. Ours is the only newspaper directory which attempts this. It should be consulted before sending out cuts.

CIRCULATION STATEMENTS.

The actual circulation of many publications is one of those things which "no fellow can find out." If the facts could always be known how many vexed questions would be settled, how easily the right price for advertising could be determined! But we do not attempt the impossible, nor lay claim to an absolute accuracy which is impossible, in our statements of newspaper circulations. We can only say that we go about the collecting of our information carefully and systematically. We have the advantage of an experience of nearly thirty years of actual contact with all classes of publications in which their circulation has been the most important consideration, while we have also, in our relations with advertisers, an insight into the subject from their standpoint. We believe that our statements of circulation are as accurate as can be obtained. We have indicated all cases where sworn statements, properly filled out, have been made to us by publishers. When they have supplied us with detailed statements, which we have no reason to doubt, we have noted it by the word "claimed." In using the word "claimed" we do not intend to throw any doubt upon the statements of the publishers; on the contrary, we do not so mark them if we have any reason to think them unreasonable. In cases where we have had neither affidavits nor acceptable claims, we have set down the circulation without marks, signifying that we place it at that figure from all the information, direct or indirect, which we have. If we have done

injustice to any publication in our circulation statements, it has not been intentional, and we will gladly rectify it in our next issue, if brought to our attention. In a comparatively few cases we have left the circulation column blank, either because we have been unable to find sufficient information on which to base a statement, or because the publication has been established within a year and has probably not had time to build up a *bona fide* circulation. We have also omitted the circulation rating from a few publications which are simply advertising mediums or price-lists of certain business houses. We have also omitted from this Catalogue most publications which do not insert advertisements, and some of those which are simply circulars or advertising sheets issued by business houses in the form of newspapers or magazines.

POPULATIONS.

These are taken from the Federal census of 1890. In the cases of some small villages or towns, where the census gives only the population of the whole township, we have obtained the village population from other reliable sources.

SUNDAY EDITIONS.

As it is often important to know whether a daily paper is published on Sunday or not, we repeat here the information, given elsewhere, that all dailies put down as being issued in the *morning* are published every day in the week, *including Sundays*, unless expressly stated to the contrary. It will be noticed that in some cases the Sunday edition is expressly mentioned by itself and its circulation given. This is where the Sunday edition varies considerably in circulation from that on other days of the week. Evening dailies are published six days in the week only and *not on Sundays*, unless otherwise specified. Some daily papers are noted, for instance, thus: "Mor ex Mon"—which signifies that they are published every morning, including Sunday, but not on Monday.

NEWSPAPER ADVERTISEMENTS.

We have admitted to this book a few advertisements of leading publications, but have kept them within such limited bounds that the book is not bulky nor too cumbersome for practical use. This catalogue is not issued as a mere advertising scheme, and we do not wish to give it that appearance by making it two-thirds advertising matter. In order to make such advertisements as we have admitted more effective, we have referred to them (giving the page) in the body of the catalogue, under the name of the paper. We give, also, on pages 677 to 678 an index to these advertisements to assist reference to them. Advertisers will obtain additional information of interest, impossible to incorporate in the body of the book, by referring to the advertisements.

FUTURE ISSUES OF THIS CATALOGUE.

This Directory is issued yearly, in December, and is always open to correction up to the date of going to press, about October first. We know there is always room for improvement in a work of this character, and we shall feel grateful for any suggestions to that end or corrections from publishers or advertisers.

December, 1894.

DAUCHY & COMPANY.

OURSELVES.

We conduct an agency for the insertion of advertisements in all the periodical publications of the United States and Canada, and, through our London representatives, the well-known house of Messrs. Street & Co., we insert advertisements in all the publications of Great Britain or continental Europe.

The functions of the newspaper advertising agent are now so well understood that it seems hardly necessary to explain that we furnish estimates of cost, prepare drawings and write copy for advertisements, set them up in type, and make and send out all electrotyped or stereotyped cuts. We send the orders for advertising to the papers, examine and check up the insertion of each advertisement in each issue of the papers, and notify the publishers at once of wrong insertions. We see that each paper completes the order, according to contract, and furnish detailed bills to the advertiser, to whom we give access to our newspaper files, for examination of each insertion of his advertisement in each paper.

These, however, are the usual functions of a properly equipped advertising agency. The advantage of employing a large agency like ours is that we can save the advertiser money in placing contracts. We have the *experience*, without which it is impossible to know what advertising space is worth or can be obtained for. Capital, energy, ability, we have, but all without *experience* are nothing. We know what advertising space can be bought for, because we know what the leading advertisers are paying for it. If a publisher is accepting a lower figure this year than last we know it. We keep constantly in touch with the papers and the advertisers, and we are always posted. We buy space by the year at wholesale in the daily and weekly newspapers, in the magazines, etc., which we can retail at low prices. In short, we aim to be aggressive and progressive, and we solicit correspondence.

Character or Quality

is, after all, the great essential in the circulation of a newspaper. It comes right down to that, when all is said and done.

Quantity of Circulation

is not to be despised either, but without CHARACTER or QUALITY it does not amount to much. Only a little thought will prove this to the satisfaction of most advertisers.

When a Paper has Both

it is peculiarly acceptable.

Under Vigorous Management

THE NEW YORK TIMES has seen a new era in its history of over forty years. Identified with progressive and, at the same time, self-respecting and dignified journalism, it has grown steadily but surely in the quantity of circulation, and has lost none of its quality or character.

No Better Medium Anywhere

than THE NEW YORK TIMES, which reaches the highest type of American Citizenship and every corner of the Financial, Mercantile, Art, Scientific and Professional world. Scale Rates, Contract Rates, Discounts, etc., promptly furnished.

Quality in Circulation.

"The one thing necessary in these days is to ascertain the *quality* of the circulation before recommending a publication to advertisers."

Success attained by Advertising.

"I would rather advertise continuously in one publication of moderate but high-class circulation than scatter my powder and shot, hit or miss, over a wide area."

The first of these statements is made by a prominent advertising agent, the second by one of the most successful advertisers in this country.

The New York Medical Journal

just meets these requirements for medical advertisers.

The character and standing of its readers are unsurpassed.

Its circulation is equal to that of any of the best mediums, and strictly subscription.

Where, then, can you advertise so as to reach more directly those you seek as customers than in

The New York Medical Journal?

That advertisers appreciate it is shown by the large number of first-class houses who use it constantly, and who willingly testify to the good results from it.

The character of the circulation must of necessity be the very best—worth more **TO ADVERTISERS** than a circulation of four times the number in a magazine of a miscellaneous character.

THE POPULAR SCIENCE MONTHLY was established (May, 1872) to raise the standard of popular reading in this country.

It aims to present the results of the most careful thought and precise inquiry on the subjects of **personal and household hygiene, medicine, architecture, agriculture**, the improvement of **food products**, and the detection and prevention of adulterations.

THE MAIL AND EXPRESS, New York.

AN evening daily newspaper known and read in every State in the Union because it prints the news and excludes, most rigidly, from its reading and advertising columns matter unsuitable for the family circle. Daily issues, 8 to 12 pages; Saturday issues, 20 to 32 pages.

The feature articles of the Saturday MAIL AND EXPRESS compare favorably with those printed in any other American newspaper. The circulation of THE MAIL AND EXPRESS is mainly among people whom the better class of advertisers desire to reach. A tribute to the value of its advertising columns is found in the fact that the advertisements printed from April 1, 1894, to December 1, 1894, increased in space about 25 per cent. as compared with the same period of 1893.

CHAS. E. NEWTON,
Vice-Pres't.

We beg to call the attention of all Printers and Publishers in the country to the following letters from some of our leading customers, which have been kindly tendered us:

OFFICE OF THE PUBLIC PRINTER,

Washington, D. C., June 20, 1894.

FREDERICK H. LEVEY Co., Manufacturers, &c., N. Y. City.

Gentlemen:—In response to your request of 19th Inst., I cheerfully state that in 1886 a somewhat exhaustive test was made of book and job inks in this office, under my direction. Following such test, the inks furnished by you were selected in part for office use, both for reasons of color, economy in use and cost.

These inks gave such great satisfaction, especially in fine bookwork, engraving and half-tone printing, that I have this year, upon taking charge of this office as Public Printer, directed the use of your inks without any request on your part. Very truly yours,

THOS. E. BENEDICT, Public Printer.

THEO. L. DEVINNE & CO., PRINTERS.

THE DEVINNE PRESS,

12 Lafayette Place, New York.

New York, June 12, 1894.

FRED'K H. LEVEY Co., New York.

Dear Sirs:—We have been using your inks for some years past and can testify to their general excellence, more especially for their use on coated paper. We find them very uniform, and with your nice graduations of hody we can suit ourselves for almost any condition of paper. They are certainly very superior in quality, and we are highly satisfied with the results obtained from their use.

Yours very truly,
Dictated. THEO. L. DEVINNE & CO.

TROW DIRECTORY, PRINTING AND BOOKBINDING CO.,
PRINTING AND BOOKBINDING DEPARTMENT,

201-213 East 12th Street, New York.

June 19, 1894.

Messrs. FRED'K H. LEVEY Co., 59 Beekman St., N. Y.

Gentlemen:—We take pleasure in stating that we have used your inks on various publications for several years, and their adaptability to all grades of printing has given us the best satisfaction. Your ability to furnish satisfactory material for all requirements—depending upon such conditions as changes in the atmosphere and various kinds of paper—has been thoroughly demonstrated. You are particularly successful with the grades for half-tone work on coated paper. Its uniformity in quality, depth of color, and fine working qualities have given very gratifying results. Yours truly,

THE LADIES' HOME JOURNAL,

CURTIS PUBLISHING Co.,

Business Department, Philadelphia, June 19, 1894.

THE FRED'K H. LEVEY Co., 59 Beekman Street, New York.

Gentlemen:—Since we began using our own mechanical plant, February, 1891, we have bought our LADIES' HOME JOURNAL ink and much of that for the varying covers of the magazine from you. Based on the experience of more than three years prior to April 2, 1894, we made a year's

contract with you from that date. We have not regretted, nor do we expect to repent, having made such a contract.

Very truly yours,

PUCK.

New York, June 19, 1894.

THE FREDERICK H. LEVEY Co., New York City.

Gentlemen:—It gives us great pleasure to state that your black and colored inks which we have used on PUCK and on our other publications for the past year, have given great satisfaction.

Their uniform and excellent quality has proved a great factor in turning out satisfactory work.

We are very truly yours,

Nine Times Out of Ten.

The advertiser who will use but one evening paper in New York City will, nine times out of ten, act wisely in selecting The Evening Post. No other has so large an advertising patronage. In influence and respectability it easily takes the lead.—PRINTERS' INK, New York.

CIRCULATION.

The readers of The Evening Post are usually well-to-do, the most profitable customers, and its circulation cannot be duplicated. It reaches the men first, then their homes: two circulations at the cost of one, and a thorough reading at the leisure time of the day.

ADVERTISING.

Representative houses in all lines of business are the largest advertisers. Unworthy and disagreeable advertising is excluded. The rates are invariable, and the advertisements are set under competent direction, and well printed on good paper.

From January 1, 1894, to December 1, 1894, The Evening Post contained 578 columns of advertising more than in the corresponding period of any previous year, all at invariable rates—an exceptional record.

General advertisers who seek a clean, clear field of more than 3,600 *Thrifty Homes* in which they wish to sell their goods will be sure to use

ALBANY, N. Y.

From the Albany, N. Y., TIMES-UNION, April, 1894.

A \$5,000 OFFER.

The TIMES-UNION has more subscribers and readers than all THE OTHER DAILIES IN ALBANY COMBINED. It will distribute the sum of \$5,000 among the various hospitals, orphan asylums, Home for Aged Hebrews and other charitable associations, located in the city of Albany, if this statement is not true. It invites inquiry from the managers of the various charitable institutions, as well as advertisers who use its columns.

Why this wonderful success of the TIMES-UNION?

Because it is honest, fearless and independent.

Because it gives all the news in a concise, clear form.

Because its columns cannot be controlled by Political Bosses who distribute the people's money to subsidize newspapers.

Because the people of Albany know it is the fearless advocate and defender of their rights.

The TIMES-UNION is the favorite Home Newspaper, as its advertising columns are closed to a certain class of announcements. It is careful to exclude anything unfit to be read in the family circle. Its wide popularity and great circulation have been obtained by legitimate methods and not by sensationalism. It gives all the important news of the world impartially, and its comments are addressed to the intelligence of its readers. Its influence is always on the side of good morals and good manners, and hence it is a welcome daily visitor in every household.

The EAGLE is admired by journalists all over the country as the best example of a purely local newspaper. It publishes all the news of the world, but its first aim is to record the affairs of Brooklyn, and this it does with remarkable thoroughness, and with such fairness that even in political contests it publishes full reports upon both sides. It is clean and dignified, and has prospered to the point of owning a model building which is one of the sights of the town.

TRUTH.

Weekly Publication.

Illustrated in Colors.

203 Broadway, New York.

TRUTH WILL TELL!

- Is there any weekly surpassing TRUTH?
- Is there any so beautiful?
- How many have as large a circulation?
- Is there another one sought with such eager interest or read with such zest?

It would seem that these are questions advertisers should carefully consider.

That very many of the shrewdest and most conservative advertisers have considered and passed a favorable decision is proved by a glance at TRUTH'S advertising pages.

TRUTH tells for them.

It will tell for you if you will

TRY IT.

AS the art of advertising becomes each year better understood and more firmly established upon a business basis, the advertiser learns:

1st—To demand facts regarding circulation. 2nd—He is anxious to secure those mediums which reach the very widest constituency. 3d—He must have assurances that are binding. 4th—An unwillingness to state circulation is no longer satisfactory to him. 5th—He must also wish to know that the growth of a publication is of a character likely to insure continuance.

FOR THESE REASONS WE PRESENT HERE THE
RECORD OF

The Cosmopolitan Magazine.

For January, 1889, the edition was 20,000 copies.

The average edition for 1890 was 52,916 copies.

The average edition for 1891 was 74,750 copies.

The average edition for 1892 was 101,333 copies.

The average edition for 1893 was 149,215 copies.

The average edition for 1894 was 202,750 copies.

EDITION FOR DECEMBER, 1894, NOW ON PRESSES, IS 250,000 COPIES.

ALL BOOKS AND ACCOUNTS OPEN TO THE INSPECTION OF ADVERTISERS.

One fact more: **The Lowest Yearly Rate in Proportion to Circulation given** by any Leading Monthly is, we believe, that offered by THE COSMOPOLITAN.

\$1.25 PER LINE FOR QUARTER PAGES.

The North American Review

Has a wide circulation in every State in the Union among those whom it is most desirable for advertisers to reach. It goes every month to the homes of the best reading people in the country, those who wish to know what the most eminent writers and thinkers of the age have to say upon the great topics and practical interests of the day. It is not intended for any special class, but, as its pages are open to the advocates of all sides of important public questions, it is read by men and women of all shades of opinion—in politics, religion, etc.—numbering its readers by thousands, among statesmen, lawyers, the clergy, medical men, bankers, merchants, and the financial class generally: in short, among all who have money to spend and are ready to spend it in the purchase of whatever ministers to the comfort and convenience of life.

The **REVIEW** is also a favorite periodical among the most intelligent women in the country, every number containing articles specially appropriate for that class of subscribers.

No American periodical offers a better opportunity for effective and profitable advertising. Address.

THE NORTH AMERICAN REVIEW,

3 East 14th Street, New York.

IT IS IMPORTANT TO REMEMBER

That owing to the success of the **REVIEW** in dealing promptly and authoritatively every month with the subjects of greatest public interest, the demand for its monthly issues is frequently so great that numerous editions have to be printed after the original edition has been exhausted. Of several numbers published within the last eighteen months more than TEN EXTRA EDITIONS have been called for, and the sale of one number was so great that THIRTY-EIGHT EXTRA EDITIONS WERE SOLD WITHIN FOUR WEEKS.

Shrewd Advertisers attest its influence, and include THE REPUBLIC on their list of best mediums.

243 Washington St., Boston, Mass.

Farmers' Review, Chicago, Ill.

WEEKLY.

THE circulation of the FARMERS' REVIEW is more general than the ordinary weekly of its class.

It covers the entire Northwest, but mainly ILLINOIS, Wisconsin, Iowa, Minnesota, Nebraska and Kansas.

Its reputation is national. Its management is clean in editorials, advertisements and in its business intercourse with its patrons. Thorough honesty in every department has sustained for it a reputation to be proud of, and it is worthy of every advertiser's first and best consideration.

It is considered the leading agricultural paper in the State,

and a comparison of its reading columns with other agricultural papers will, at a glance, show wherein it is worthy to be so considered.

J. C. BUSH,

Special Eastern Representative,
59 TIMES BUILDING, NEW YORK.

Indiana Farmer, Indianapolis, Ind.

WEEKLY.

THERE is not a post-office in the State of Indiana to which the FARMER is not sent, and it is within bounds to say that

It reaches every farmer in the State who is worth reaching,

or who has money enough to buy anything advertised in its columns. In fact, it is impossible to reach the Hoosier Farmer without advertising in the INDIANA FARMER.

It covers the Middle West.

The State Manager of the Empire Reaper says that an ad placed in the INDIANA FARMER paid its cost several times, and he considers it the best medium in existence for agricultural machinery. Others in many lines have the same experience. Its fiftieth birthday will be celebrated in 1897.

J. C. BUSH,

SPECIAL EASTERN REPRESENTATIVE,
59 Times Building, NEW YORK.

Texas Farm and Ranch, Dallas, Texas.

WEEKLY.

THE TEXAS FARM AND RANCH is a Texas paper, and its circulation is mainly in Texas, but it has a large number of subscribers in Louisiana, Arkansas, Arizona, New Mexico and the Indian Territory. It is the official paper of every Texas State organization in the interests of Agriculture in all its branches. It has persistently barred its columns to all forms of advertising other than that of the cleanest and most desirable character.

The large manufacturers of agricultural implements who seek trade in Texas have branch houses in Dallas, and they have all united in signing the following:

"To those who intend advertising any clean legitimate business in this section, we can heartily recommend TEXAS FARM AND RANCH as the best, most popular and widely circulating advertising medium in Texas."

This is certainly worthy of the consideration of any advertiser who wants to reach the farmers of Texas.

A BIG CONTRACT.

During the year beginning September 1, 1894, the TEXAS FARM AND RANCH will issue each week, for 52 consecutive weeks, fifty thousand extra papers. These papers have been bought outright by the Aransas Pass R. R. and are to be distributed by them. It will make the circulation of TEXAS FARM AND RANCH larger than that of any other weekly agricultural paper in the world. The rates will remain the same as heretofore, and advertisers should not fail to take advantage of it.

The Indianapolis Sentinel,

DAILY AND WEEKLY,

HON. SAMUEL E. MORSS, Editor,

*Is more largely patronized by general advertisers than any paper
published in United States!!*

~~~~~ W H Y ? ~~~~~

It is, peculiarly, the paper of the State.

It goes to every post-office in the State.

It is the oldest daily paper in Indiana. Established in 1821.

No State in the Union gives such great returns to advertisers, in comparison  
with the cost of advertising, as does Indiana.

**PROMPT INSERTION,**

**LOW PRICES, AND**

**SATISFACTORY SERVICE**

without the great annoyance and expense of making a separate contract with each paper.

**COMPLETE FILES**

of all these papers are kept at our office, and advertisers can see every issue of each paper desired in checking their bills.

**PRICES.**

Our pamphlet, giving prices and all particulars in regard to these lists, furnished upon application.

**DISCOUNTS**

from the printed prices are graduated according to the amount of the order. Net prices will be quoted to intending advertisers stating details as to size of advertisement, time, etc.

**CHANGES**

will necessarily occur from time to time, among so many papers, but the full number will surely be maintained, and the character of the lists will be kept up to the standard.

**\$72.13**

An Advertisement occupying the space of ONE INCH, for ONE MONTH, in each of the foregoing newspapers, at publishers' rates, as given above, would cost \$72.13; our price is \$18. See "DISCOUNTS," page 653.

## THE LOCAL PAPER.

There is no question about the value of a good, well-established LOCAL NEWSPAPER. It reaches the home of the people, and is sure to be kept and read for the local news, in which everybody is interested and which cannot be found elsewhere. The only question is how to use the LOCAL NEWSPAPER in the cheapest and most convenient way. The cost of contracting with each paper for each advertisement by usual method is so great in proportion to the cost of the advertising itself, that the local papers prove expensive, especially for advertisements running for six months or less. But by our systematic arrangement of them in our popular local lists, the *only lists of their kind* now extant, and contracting for column's space by the year, we enable customers to insert advertisements, small or large, running four weeks or longer, at the lowest yearly rates, and with a promptness and regularity impossible in any other way. As to the character of our papers; we invite careful examination of our Lists. They include well-established papers only; many of them have been on our lists for over twenty years, and the proportion of DAILIES is over 15 per cent. of the whole number.
